Claims 1-13 and 23-26 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art teaches magnetic film compositions which comprise particles of Nd-Fe-B system materials dispersed in organic mediums which may include polymers and organic solvent. The prior art such as Kishimoto (US 6,517,934) teaches that the organic medium may contain polyurethane and other polymeric compounds. However, the prior art does not teach or suggest the claimed composition wherein the organic medium consists of a polymer of the claimed materials and an organic solvent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
